

Me Before You by Jojo Moyes

This novel is set in 2009 and is about a young lad called Will who had everything in life – money, good job, girlfriend when he had an accident and his life changed dramatically and in the process changed another family's life too.

Don't be fooled by the cover of this book – it may look like it is going to be Chick Lit but it tackles some very difficult issues as it explores whether it is right to allow someone to end their own life with help.

This book provoked a lot of discussion in the Book Group including:

- What effect did Will's family life have on his decision?
- Was Will being selfish?
- How far does a person's right to choose extend?
- Does it include the right to die

If you choose this page-turner for your holiday reading, make sure you are prepared to be seen weeping!
