

The Midwife's Confession by Diane Chamberlain

The novel is set in America with the timespan spreading across three decades leading up to the present time. The suicide of one of three close friends opens up a web of deceit and secret life that the other two had no idea about. It is a page turner and will keep you hooked until the last page.

The thoughts from our reading club were that although it was a good story there were lots of inconsistencies within the story line and also it was too American both in how the book was written and in the concept of American family life.
